Best out of Waste Competition **"REGARD BEFORE YOU DISCARD"**

Everyday Wastes like plastic, glasses, newspapers or electronic, are not only waste of resources, but also are harmful to the environment. Innovative and creative ideas for recycling and reusing those waste materials can result in development of fantastic and usable products. This event is to bring such ideas to students and to help them think themselves in such ways of reusing everyday materials that will not only reduce the waste but provide them with useful household products. The idea will not only be of economic and material value for students, but will be helpful in creating environmental consciousness among them that is the need of the hour.

RULES AND REGULATIONS

- Each Participant must show their creativity and talk about the same.
- Waste material could be anything like tetra packs, bottles, newspapers, old utensils, jute material or any second hand items that otherwise would be thrown away.
- The material would be rejected if not found to be a waste product or second hand item.
- No ready-made or semi-finished model or matter would be accepted from participants in competition.
- Participants will be judged on Creativity, Utilization of Resources, Artistic composition & design, Eco-friendly rating, Utility of the Product and Overall Presentation
- The decision of the judges will be considered final and abiding.
