

Department of Pharmacy Practice

About us

The Department of Pharmacy Practice (PP) was established in 2009 to advance the concept of clinical pharmacy through practise and education, with a focus on the importance of practising pharmacists' involvement in patient care. The Pharmacy Practice Department was established as a model Centre for Clinical Pharmacy Practice at the Govt. General Hospital (GGH), Kadapa, a 1000-bed tertiary care teaching hospital. The clinical pharmacy services provided to the GGH and other health care settings in this region were well received by the medical community.

Our trained students have been assigned to various institutions/pharmacies/organizations/industries, allowing the clinical pharmacy concept/approach to be established in these settings.

Vision: To provide safe, high quality patient care in an atmosphere of professionalism, respect and effective communication.

Mission: The Department Of Pharmacy Practice is committed to Patient Care, Education & Research.

Key Features

- Well qualified and experienced faculties
- ICT enabled learning
- Student friendly environment in research

Facilities

As the hallmark of Annamacharya College of Pharmacy is "quality and excellence in education", the department has more infrastructure and facilities and meets statutory requirements.

Infrastructure

Name of the Infrastructure/facility	Description
Pharm D & Pharm D (P.B) Class Rooms	Class rooms with facilities for ICT enabled teaching
Drug Information Centre	The extension of the centre functioning from Govt. General Hospital, Kadapa
Model Pharmacy	In college premises

Thrust area of research

- Pharmacovigilance
- Pharmaceutical care
- Patient counselling in chronic diseases
- Antimicrobial stewardship

Learning Resources

The department of Pharmacy Practice is equipped with the following resources for the teaching and learning process.

Name of the Learning Resource	Description
IBM Micromedex solutions (DRUG INFORMATION RESOURCE)	A tailored Micromedex interface providing trusted evidence and global guidance with a Pharmaceutical perspective.
DELNET Database	Maintains an online union catalogue of books available in its member-libraries. This union catalogue is continuously updated and is growing in size. The information can be retrieved by author, title, subject, conference, series, etc.
Department Library	Rich stack of reference books, monographs, guidelines, drug information hand books, etc. updated every year.

Department of Health Research

Government Colleges & Universities

Sports Authority of India

Pharmacy being a vast field has a lot to offer. However, it takes diligent work, proper planning, and the ability to choose the right option. Considering the value of a Pharm. D degree, it is recommended that the candidates pick the best college that focuses equally on theoretical as well as experiential postulates. ANCP provides support to all those seeking help regarding admissions. To know more about the courses or admission procedure, visit the official site of <http://ancpap.in>.

Department activities
